

ABLE

REDEFINE WHAT'S POSSIBLE

SET TO **FILM IN AUBURN AND OPELIKA** IN 2027, WE INVITE YOUR BUSINESS TO BECOME A PART OF MAKING THIS FILM PROJECT A REALITY!

ABLE is an independent feature film project that aims to change the world's opinion of Down syndrome.

When parents receive a Down syndrome diagnosis, too often it comes with a life sentence of doom, despite the fact that studies show that families that raise a child with Down syndrome tend to be happier and more fulfilled.

Inspired by a true story, this film offers a new perspective. One that gives hope, encouragement, and illustrates why the Down syndrome community refers to themselves as "the lucky few."
